

# OPTION 1

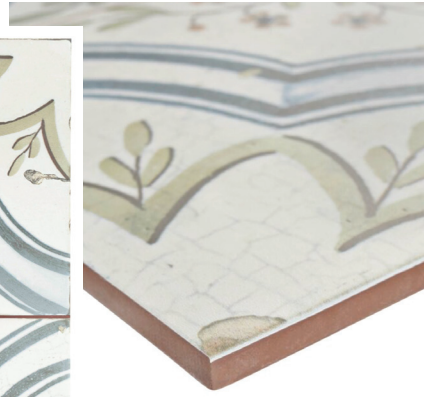

OTHER TILE  
IN THE HOUSE

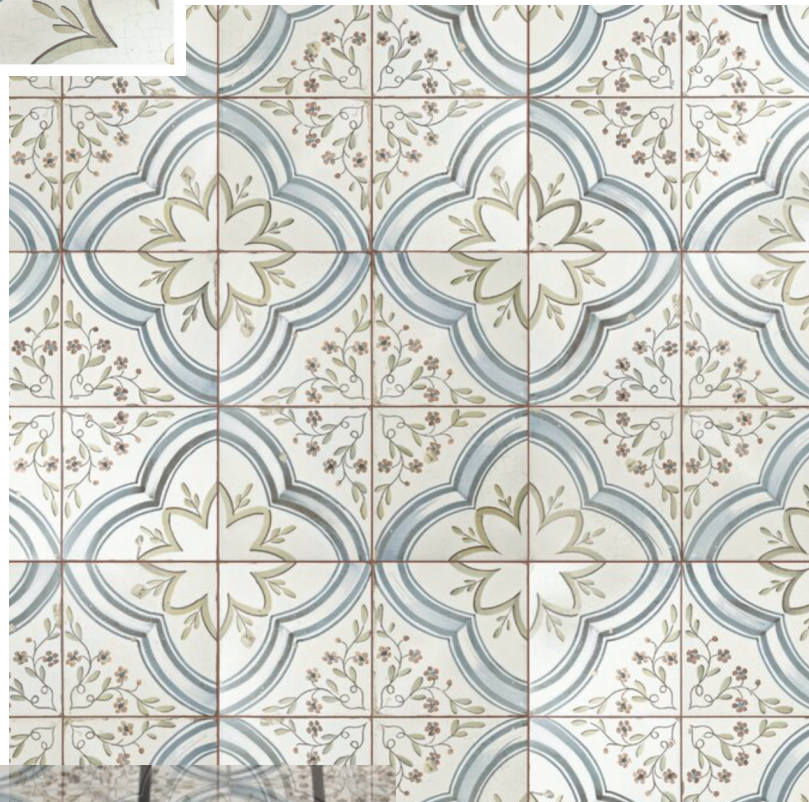

This is the tile I had originally picked out for your space, but after seeing it installed I did not like it as much. I feel like the pattern was lost and almost looks too busy. I love the distressed look and I think that goes well with your style though.

## OPTION 2

OTHER TILE  
IN THE HOUSE

This tile goes well with your other tile choices and adds a little color to your space. They look hand-crafted almost like a piece of art and high-end \$. The cracked glaze background is very fitting with your vintage vanity. The blues pair really well with your brass accents and natural wood.

## OPTION 3

OTHER TILE  
IN THE HOUSE

This tile looks like it is from the same line as your master shower floor tile with the wood grains within the pattern. It is a good mix of color to pair with the black and brass accents in this bathroom.
